

Retail and Resort Database

SIA maintains a highly accurate database of over 10,000 retail storefronts in the US and Canada. It primarily contains snow sports retailers and resorts but also features other types of businesses that purchase snow sports products for retail sale, promotional use, rental or even staff uniforms. The data is phone-verified and maintained year-round by an experienced database staff that updates the information daily. We know of no other resource for this amount of quality data for specialty, chain or niche snow sports markets.

SIA's database rentals are in an Excel Spreadsheet format with the following fields of data:

- Retail Shop Type (Single, Office, Main, Branch or Internet) Shop/Company Name Mailing address 1 Mailing address 2 City, State, Zip Phone Web site Products they sell (Y or N)
- Alpine Snowboard XC Snowshoes Apparel Rental Primary Contact F & L name Primary

SIA strives to have the most complete and comprehensive snow sports buyer list in the industry. While no database is perfect, we will provide you the most current information we have captured to help you make informed decisions for your company mailing or project. We challenge anyone to find a more complete and comprehensive database on ski and snowboard shops anywhere.

Each rental database can be customized to support your project requirements.
