Seth Ehrlich

SOS Outreach

Prior to being named interim executive director in the fall of 2014, Ehrlich served as vice president of operations and has been praised for staff development. SOS was awarded an unprecedented third term with AmeriCorps for exceptional recruiting, onboarding and mentorship.

"I am very excited to continue my work with SOS and to support the difference that it is making in the lives of so many kids in multiple communities, across many states," Ehrlich said.

Ehrlich has a bachelor's degree from Allegheny College and a master's degree from Carnegie Mellon University. He lives in Edwards with his wife, Jennifer, and their two children.
